

July 25, 2011

Chairman Julius Genachowski  
Federal Communications Commission  
445 12th Street SW  
Washington, DC 20554

*RE: In the Matter of applications of AT&T Inc. and Deutsche Telekom AG for consent to assign or Transfer Control of licenses and Authorizations; (WT Proceeding - No. 11-65).*

Dear Chairman Genachowski and Commissioners:

The mission of the Central Tech Foundation, Inc. is to educate and support students at CCT as they develop into lifelong learners, providing a nurturing environment while providing academic assistance to students preparing for technical careers. Central Career Technology has been recognized by the Oklahoma Association of Technology Centers as a winner of the prestigious Gold Star School Designation.

We are very proud of the work we do at CCT and the students we have helped educate and train for the technology jobs of today and tomorrow. But at a time when the economy is not doing as well and technology jobs – particularly in smaller, more rural areas like ours -- are not as abundant as we would hope, I believe that there is a step you can take to get things moving again.

I write today to urge you to approve the merger of AT&T and T-Mobile USA, because it will bring 4G LTE high-speed mobile broadband technology to more rural communities like Drumright/Sapulpa across Oklahoma and nationwide. In fact, one of the key results of this merger would be the expansion of high-speed mobile broadband technology access to over 97% of the country's population.

With everything going mobile, the future of our economy is clearly reliant on access to mobile broadband technology. In a word, the impact of this technology to our technical center and to our local economy would be transformative. I strongly urge you to approve this merger.

Sincerely,

Fred J. Caudle  
Board President

Phil Waul  
Superintendent
